FILM & GRAPHIC DESIGN

MPC offers nationally recognised qualifications in media at Certificate II and III level as well as Certificate IV in Screen and Media and Certificate IV in Design. The Film and Design major offers a pathway for students to gain a foundation of skill and experience in both the film making and graphic design industries with a focus on filming, photography, video editing and graphic design.

The Film and Design courses at MPC will develop your understanding of photography, cinematography and design principles. You will develop skill, efficiency and creativity using industry leading film editing and graphic design software. You will also expand your creative palette as you research popular trends in design and craft your own stories to be told through the medium of film. The media courses are extremely practical and you will gain invaluable industry experience as you assist and manage various creative projects such as filming news programs, TV ads and short films; creating print advertisements and branding campaigns; and hosting arts exhibitions.

As you complete the Film and Design courses you will have a deeper understanding of the film making and graphic design industries, gaining valuable skill and experience. You will be well equipped for advanced training in the Film and Design industries and to begin working on projects as you establish a creative career.

SOUND PRODUCTION

MPC School of Creative Arts offers nationally recognised qualifications in sound production from Certificate II through to Certificate IV. Students in Sound Production courses will develop technical understanding, skill and experience in both live and studio production environments.

Sound Production students will learn the theory, setup and operation of audio, lighting and visual systems. You will also cover elements of event direction and production management. This knowledge and skill will be put into practice as you assist, run, and direct the production of live events and studio recording projects.

You will be introduced to some industry-leading consoles and digital audio workstations becoming proficient in the use of this equipment as you move through higher levels of the Sound Production courses.

You will also help to host showcase events in which your technical team will be responsible for the audio, visual and lighting production.

As you complete the sound production courses you will gain considerable understanding and experience in audio, lighting and visual systems. You will also be equipped to enter the technical production industry and be well prepared for advanced study.

CHRISTIAN MINISTRY

If you are looking to further your understanding of Christian Scripture and how it applies to our lives and work today, then MPC School of Christian Formation has a range of courses that will interest you.

The nationally accredited Certificate III in Christian Ministry and Theology provides a basic foundation in biblical knowledge. You will learn to appreciate the scripture and its application to your life and the lives of those around you.

The Certificate IV in Christian Ministry and Theology takes you further and deeper, providing you with skills for living and the workplace. The course also opens up various vocational roles, including chaplaincy and ministry.

If you choose the Certificate III course, you will study 6 biblical subjects with practical, ethical and personal application, together with 2 additional practical electives that may include music, media or small group leadership, while students in the Certificate IV course have the same core units with 3 electives. You will be challenged to think through the major issues of faith and life in a relaxed and encouraging environment. You are welcome to come and see what the Lord has to say to you.
